

## AREAS WE SERVE

Serving 16 counties across metro Atlanta, our skilled caregivers provide personalized care, attentive support and companionship for adults in a variety of environments.

We have proudly served the community for over 30 years and are here to help however you need us.

## CASE MANAGEMENT

Case management is the core of our approach. Each relationship begins with a complimentary professional assessment by a **Registered Nurse (RN)** to establish the individualized care plan.

A **Social Worker (MSW)** or other skilled professional is assigned as Case Manager (who serves as the single point of contact)

The Case Manager selects a caregiver with the appropriate skills and personality to ensure a successful relationship and remains the liaison between the family, client and care-giving team.
